TUESDAY NOVEMBER 22. 1743.

**THE SPEECH of his Excellency WILLIAM SHIRLEY, Esq. Captain-General, and Governor in Chief in and over his Majesty's Province of the Massachusetts-Bay in New-England, to the General Court or Assembly of the said Province.**

Gentlemen of the Council, and House of Representatives.

**I**t is with the greatest Pleasure that I open this Session, with congratulating you upon the News of his Majesty's having gain'd a considerable Battle against the French upon the River Maine. This important Piece of Success, and the Preservation of his Majesty's Royal Person in the Heat of the Action, are Events, which we ought to ascribe to the Favour of the Divine Providence upon his Majesty's Arms, and call for our most grateful Acknowledgments.

By a Letter received from Mr. Agent Kirby to this Court, in the Recess of it, you will find what Progress has been made in the Petition of the General Court to his Majesty in January 1741, for Twenty Pieces of Ordnance, with Stores for the additional Works begun at the East End of Castle William; and I am to inform you, that I have caus'd the Cannon within the Garrison, which were in general before render'd unfit for Service, thro' the Defects of the Wheels, Carriages, and Platforms, to be new mounted, and made fit for Service; and the Works there, which were before in a ruinous Condition, to be put into a good Posture of Defence. And as I found, upon Proof of the Out-Walls and Breast-Work of the Royal Battery, which is the main Bulwark and Defence of the Garrison, and, in case of an Attack, would be greatly expos'd by the near Approach of the Enemy's Ships, to the Shot both from their great Guns and Muskets, that they are not of sufficient Strength to secure the Guns, which are planted there, from being dismounted; and the Men, which will be employed in the Service of the Battery, from the firing of the Enemy; I have begun to strengthen the Wall with a substantial Glacis, and shall strengthen the Parapet in such a Manner, as that those Works, when perfected, will effectually secure both the Guns, and the Soldiers, from the Danger they would have been expos'd to without 'em.

And I have further to inform you, that by Mr. Agent Kirby's Letter I have Advice, that upon mine to the Right Honourable the Lord President of his Majesty's most Honourable Privy Council, in November, 1742, representing, That the Charge of repairing the several Fortifications in the Province, with large Grants of Money made for the Encouragement of his Majesty's Service in the late Expedition against the Spanish Settlements in the West-Indies, and Maintenance of the Province Galley, and other extraordinary Charges, together with the Arrears of the our-standing Bills of publick Credit, had very much burden'd the succeeding Year with Taxes; and therefore humbly proposing, that, as I apprehended further Sums of Money might be wanted for finishing the Works and Fortifications of Castle William, and in other Parts of the Province, I might have his Majesty's Leave, to consent to the Emission of any Sum in Bills of Credit, not exceeding 7 or 8000 l. which might be wanted for that particular Service, over and above the 30,000 l. to which I am restrain'd by his Majesty's 12th Instruction to me, to be drawn back into the Treasury in the Year 1745; their Excellencies the Lords Justices, with the Advice of his Majesty's most Honourable Council, have been pleas'd to order the Right Honourable the Lords Commissioners for Trade and Plantations, to prepare the Draught of an Instruction to me, agreeable to what I propos'd in my Letter.

Gentlemen of the House of Representatives,

I shall order an Estimate of the whole Charge of completing what further remains to be done, for finishing the Fortifications in the several Parts of the Province, as Occasion shall require; and doubt not, but this Indulgence of his Majesty will induce you most cheerfully to grant such further Sums, as shall appear to be necessary to enable me to perfect 'em; especially, as the present Crisis of Affairs in Europe, which, tho' we may hope it will terminate in an happy Establishment of Tranquillity thro' all his Majesty's Dominions, may yet, suddenly, take a very different Turn; it seems to make an indispensable Point of Prudence in us to prepare for all Events.

Gentlemen of the Council, and House of Representatives,

Though I have not yet receiv'd any Directions concerning the engross'd Bill now lying before me, institut-

ed, 'An Act for the more speedy finishing the Land-Band, or Manufactory Scheme,' yet I am in daily Hopes of receiving some, whereby I may be enabled to proceed upon it in some Method or other. As that Scheme has hitherto happily subsidied, a most beyond Expectation, by the Aid of the Act of Parliament for that Purpose provided, and the Measures taken by this Government for bringing the late Company's Bills in to be consum'd, and six Parts in Seven of the Farmers to pay their just Proportions, so I have it much at Heart to wind up, and finish the whole Scheme, with as little Distress as may be, to such who are unfortunately concern'd in it; and have shew'd due Obedience to the Act of Parliament, by compelling those who stand out refractorily, and in Defiance of the Law, to bear an equal Share and Burden in it.

And I can't omit, Gentlemen, expressing my Concern at finding, by the Report of the last Committee appointed by the Judges of his Majesty's Superior Court of Judicature, for determining the Value of the Bills of the last Emission, compar'd with Bills of Exchange, and Silver, that the Bills of Credit are depreciated since their Emission almost two per Cent. This is owing, chiefly, to the excessive Quantity of the Bills of Credit on the neighbouring Governments in New-England, which are received among us, and have an equal Currency with the Province Bills, in all Trade and Commerce within it; and are computed, by Persons the most knowing in this Affair, to amount to the nominal Value of about 400,000 l. old Tenor. And tho' the Government of this Province has, ever since the last Emission of Bills upon Loan, in 1727, taken Care to raise sufficient Funds of Taxes for drawing in, and sinking it's Bills, generally at reasonable Periods, and has, of late, provided by Law, that all the Debtors within the Province shall make their Creditors amends (except in Cases where it is agreed otherwise) for the depreciating of the Bills between the Time of contracting the Debts, and the Payment of them; yet have not the neighbouring Governments taken the same Care of their Bills, either in one Instance, or the other. And tho' the General Court in 1738 made a Law for hindering the Bills of Credit on any of the neighbouring Governments, emitted since the last Day of May in that Year, from passing within this Province, unless the same are made redeemable by lawful Money upon good Security, and it so appear by the Tenor and upon the Face of the Bills, within ten Years after their first Emission; yet it has not been in the least observed within the Province. If you can project any more effectual Method for preventing the Growth of this pernicious Mischief to this Province, I shall be glad; and, in the mean time, will promote the Execution of the Law already in being, to the utmost of my Power.

Gentlemen, As I am sensible this is a very busy Season in the Country, I am desirous of shortning this Session as much as may be; and hope you will proceed with all Dispatch upon the Business of the Court, which was left unfinished at the last Rising of it, and, particularly, the Consideration of what I then recommended to you, for making Satisfaction to the Creditors upon old Bonds and Mortgages: And if you can think of any Thing further for the Service of the Country, which may be done this Session, I shall most readily concur with you in it.

Council-Chamber,  
Sept. 9. 1743.

W. SHIRLEY.

## COUNTRY NEWS.

**Bristol, November 19.** Thursday Morning, on the agreeable News that his Majesty was safely landed in his British Dominions, the Bells struck out their Peals; and in the Evening the Magistrates, and the other Gentlemen of the Corporation, signaliz'd their Joy at the Council-house, by drinking many Loyal Healths.

Yesterday Morning, about Nine o'Clock, died, after a short Illness of a Fever, the Wife of Mr. Richard Champion, jun. an eminent Merchant, and one of the People called Quakers, at his House in the Old Market.

Since our last, we hear, that Part of the Cargo of the Princess Augusta, lost near Waterford, is saved, and that not so many of the Crew perished as was mentioned.

This being the Anniversary of her Royal Highness the Princess of Wales's Birth-day, the Bells were rung early in the Morning; and there were other Rejoicings in the Evening.

## L O N D O N.

Yesterday died at his House in Pall-Mall, Mr. Anderton, an eminent Grocer.

The Right Hon. the Lord Chancellor has presented the Rev. Mr. John Wix to the Rectory of Ryther, alias Rider, in the County of York.

A Dispensation has pass'd the Great Seal, to enable John Collins, M. A. Chaplain to the Right Hon. Richard Lord Edgcombe, to hold the Vicarage of Colebrooke, in the County of Devon, together with the Rectory of Mainhead, in the said County.

On Sunday in the Afternoon Sir Watkin Williams Wynn, Bart. Knight of the Shire for the County of Denbigh, arriv'd at his House in Downing-street, Westminster.

As did also the Lord Viscount Hillsborough at his House in Swallow-street, from Ireland; and divers other Members from several other Parts of the Kingdom.

Yesterday the State Lottery began drawing at Guildhall, when No. 35,473, being the first drawn Ticket, the Proprietor was entitl'd to 500 l.

The same Day the following Prizes were drawn; viz. No. 79,320, 1000 l. 7379, 12,860, 56,985, 40,456, 13,081, 21,053, 13,491, 100 l. each.

Mr. Lockart, Lieutenant of the Deptford Prize, is appointed Lieutenant of his Majesty's Ship the Dover, order'd for Chancel Service.

Yesterday William Barr, a Watchman of St. Sepulchre's Parish, was committed to Newgate by Sir John Salter, for picking a Gentleman's Pocket of 2 s. 6 d. about One o'Clock Yesterday Morning, on the Oath of James Morley, Chamberlain at the Chequer Inn in Holbourn.

As was also Jacob Levy, for breaking open the Door of the House of one Rachel Hart, and brating her in a violent manner; and likewise for assaulting the Constable in the Execution of his Office.

Likewise Anne Lewis was committed to Bridewell, for being a loose, idle, disorderly Person, and a common notorious Night-Walker, taken up in Fleet-street, on Monday Morning about One o'Clock, picking up Men.

Yesterday Abraham Pass, convicted at the last Sessions at the Old Bailey, for breaking open the Dwelling-house of Messieurs Beate and Dawson, and stealing 250 Ells of Linen, was executed at Tyburn.

No. 79,320, drawn Yesterday a Prize of 1000 l. was sold the same Morning at Lowe and Barry's.

As the present Lottery is so exceedingly more advantageous than any that has been these Twelve Years, there being no Deduction from the Blank and Prizes, as in the Bridge-Lotteries, it is not in the least surprizing, that the Demand for Tickets and Shares is so great at Lowe and Barry's, in Stationers Alley, Ludgate-street, as

their Office is the most commodiously situated to transact the Business in the exactest Manner, being retired from the Publick Streets; and as they sell them in all the cheap Methods that can be contrived; this Morning Tickets, and Shares, and Chances, will be sold till Nine o'Clock (when the Lottery begins drawing) and after Three in the Afternoon, they will be signed, and warranted undrawn, by Mr. Lowe, or Mr. Berry, that the Purchaser cannot run any Hazard there of buying counterfeit Tickets, or Blanks; which has been the Misfortune of some who dealt with those that are unknown.

Note, Their Shares will be paid as soon as drawn. As in former Lotteries they paid several thousand Pounds, and as their own Business obliges them to keep the correctest Numerical Book, their Register is in the highest Reputation.

This is to inform the Publick, That the Business of the late Mr. Benjamin Cole, Broker, will be carried on, for the Benefit of the Widow, &c. by Cotton and Lambers, at their Office against the Royal Exchange, Cornhill, and at Cole's Old Lottery-Office, next the Union Coffee-House, Exchange-Alley: At which Offices, during the Drawing, Tickets and Shares of Tickets, Chances and Shares of Chances, warranted undrawn, will be sold at the lowest Prices, and all other Business as a Broker, or relating to the Lottery, transacted with the utmost Care and Fidelity, by the above-said Cotton and Lambers. Ready Money for Blanks and Prizes so soon as drawn.

And for strengthening the Stomach, immediately creating a good Appetite, causing a regular and easy Digestion of Food, and curing all windy Effects and Disorders of the first Passages (whereas preceding Head-achs, Vapours and other Indispositions) no Bitters or any other Medicine upon Earth can compare with them, inasmuch that this infallible curing the Scurvy in all its Shapes and Appearances, they also directly and immediately cure the Green Scurvy in Virgins, Worms of all Kinds in young or old, and almost all other Chronic Diseases, (which are chiefly occasioned by Indigestion and stultent Crudities in the Stomach and Bowels) and certainly prevent Fevers, Agues, and other acute Illnesses.
